James T. Webb, Ph.D, ABPP-CL:

Creating Resiliency to Counteract Depression and Unhappiness

Monday, October 12, 2009 at 6pm - 8pm

Wooster High School (Auditorium)

1331 East Plumb Lane, Reno

Do you have questions about depression in your gifted child or your gifted students? How widespread is depression and unhappiness in gifted children? Why does their depression seem related to their idealism and their intensity? How can parents, educators, and counselors enhance resiliency in these children?

James T. Webb, Ph.D., ABPP-CL, one of the 25 most influential psychologists nationally on gifted education will be here to provide answers to these questions, as well as sources of depression, which children are more at risk, and existential depression. Dr. James Webb, a licensed and board-certified psychologist, consults with schools, programs and individuals about social and emotional needs of gifted and talented children. He is a frequent keynote and workshop speaker at state and national conventions and has appeared on Good Morning America, CBS Sunday Morning, The Phil Donahue Show, CNN and National Public Radio.

Dr. Webb is the lead author of five books and several DVD's about gifted children, four of which have won a "Best Book" awards:

- ✚ Guiding the Gifted Child: A Practical Source for Parents & Teachers
- ✚ Grandparents' Guide to Gifted Children
- ✚ Misdiagnosis and Dual Diagnoses of Gifted Children and Adults: ADHD, Bipolar, OCD, Asperger's, Depression and Other Disorders
- ✚ Gifted Parent Groups: The SENG Model, 2nd Edition
- ✚ A Parent's Guide to Gifted Children
